

Proactive measures for drivers against COVID -19 in LPC's installations

Dear partners,

Please read and follow these guidelines to protect us all:

- Dispatch facilities for the LPC installation have been moved to an office located to the right of the main gate. Entry into the installation and transactions (delivery / receipt of documents) in the specific areas is done from the window using the appropriate personal hygiene measures and PPEs.
- Do not stay indoors (offices, warehouses, packing room) during loading and unloading unless necessary.
- Stay in the truck cab for the maximum time possible.
- Use of appropriate personal hygiene and PPEs is mandatory in all partner facilities (MOH, Coral, etc.) and 3PL warehouses
- Notify LPC staff if you have recently traveled (the last 14 days) to an area with increased incidents of COVID-19.
- Before and after each transaction, disinfect your hands using the antiseptic found throughout the LPC.
- Avoid putting your hands in contact with eyes, nose, mouth to avoid contamination.
- Avoid sharing pens and other personal items.
- Avoid handshakes and keep necessary distances with all partners.
- Before and after any use of machinery, disinfect your hands using the antiseptic found throughout the LPC.
- Follow all LPC staff instructions for any additional work within the facility that may be required.
- Follow the instructions of the receiving officers at the landing sites using appropriate personal hygiene measures and PPEs.

Thanks in advance for your cooperation
